Michelle sent a virtual gift in honor of Recina.

She was so wonderful to work with. Even when she switched to days at work, she'll help me down at court and we made the best team out there. She always talked about her mother, her daughter and her son. She always mentioned how her daughter went to school and what she was doing. Also her son. If she won the lottery she'll have two place one in Jackson and another near her kids. T he last thing she talked about was her dogs. I miss every conversation with her. She meant a lot to me with the short amount of time we were working together! She was very caring and authentic on how she was working and how she was relating to people.
